

**ADELAIDE HILLS LOCATION**

**OPEN CUT COPPER AND GOLD**

**PERMANENT FULL TIME**

Situated on the edge of the picturesque Adelaide Hills is Hillgrove's Kanmantoo Copper Mine. With every convenience on your doorstep, from riverine to coastal, city to country, this location cannot be beaten. With production ramping up and the plant due to be commissioned in the coming months, this is a very exciting time in the Mine development. This is an opportunity for you to be actively involved in setting up a modern operation in an open cut copper and gold mine right from the beginning.

Are you keen to secure a role that allows you to go home every night, partake in some of the Hills region's best lifestyle opportunities AND further your career in the mining sector? Welcome to Hillgrove Resources Kanmantoo Copper Mines... no FIFO, no extended rosters, just a great team enjoying the lifestyle and benefits associated with working at one of SA's only metropolitan-based mines.

## **DRILL & BLAST ENGINEER (Permanent Full Time)**

With our rapid growth, we are now seeking a Drill & Blast Engineer to focus on operations within our Technical Services and Mining teams. The successful applicant, will be working within a close-knit team of mining specialists, and your contribution to the team will be highly regarded and the development opportunities are outstanding.

To make the shortlist for this position you must be able to demonstrate:

- 2-8 years' experience in D&B operations and systems in terms of development and deployment
- Experience in interactively providing technical direction to D&B and mining operations
- Experience with developing schedules and D&B patterns
- The ability to design and implement trials to realise blasting performance or cost improvements
- The ability to establish and implement planning, scheduling and reporting procedures
- Undertake risk analysis and continuous improvements both within the drill and blast process and with a whole of site view

An attractive salary package plus is on offer to the successful applicant (commensurate with skills and experience).

## **SENIOR SAFETY ADVISOR (Permanent Full Time) - 8/6 Roster**

We are also seeking a dynamic Senior Safety Adviser. The successful applicant will be working with a team of safety specialists across the mining, mineral processing and exploration disciplines. This role is both exciting and challenging and your contribution to the team will be very rewarding.

The successful applicant will be able to demonstrate:

- A minimum of four years' experience in a similar role in mining/heavy industry
- Relevant formal qualifications
- Experience in developing and implementing new systems and processes into the work place
- A solid understanding of relevant Workplace Health & Safety and Mining legislation
- An understanding of behavioural safety principles from both a management and employee perspective
- Experience in the development and delivery of health and safety training
- Excellent communication and influencing skills both written and verbal
- Initiative, drive and the ability to think laterally.
- Applicants with Emergency Response Planning development and implementation will be favourably considered

An attractive salary package plus is on offer to the successful applicant (commensurate with skills and experience).
